AT THE BAY. Interview With the German Consul-Facts for Fruit-Shippers-Etc.

San Francisco, March 18th.-Consul Rosenthal, representing Germany in this city, said to-day that possibly the German officials at Samoa, under the stress of circumstances, may have taken steps which were not upheld by the German Government. The correspondence published in the "white book," the official record of Germany, shows that the German Government never entertained the idea abrogating the neutrality of the Samcan Islands. He expressed the belief that at the conference in Berlin all the difficulties

will be amicably settled.

STATE PRISON MANAGEMENT. France was quickly denied, and all the marts showed a better tendency at the tigation. Just before the adjournment of the Legislature on Saturday night the following report of the investigation into the manage-

Bourse closed very calm, Rio Tintos being quoted at 22.77 francs, and Societe Des Metaux at 26 francs 25 centimes.

It is expected that negotiations will be concluded this evening for an advance to the Comptoir des Compte of 40.000,000 francs, of which sum the Bank of France will advance 20.000,000 francs without saving its prior claim, as in the first loan; Rothschilds and the Syndicat Chamber 3.000,000 francs each, and other financial houses the balance. The total of 40.000,000 francs will be advanced on condition of the transference of the entire paid-up capital of the Comptoir des Compte.

The Bank of France will have priority to the extent of 80,000,000 francs. It is considered doubtful if the remaining 60,000,000 will be covered by the assets from the liquidation of the Comptoir des Compte, but the contributors to the advance will be deferance, and the patronage trials at the Senate of the State of California: The committee appointed to investigate the charges against the management of state Prison affairs were very much hampered in their exertions by the extreme brevity of time allowed them and the pressure of other business. Personally, I attended many of the governor ought to bring the facts more prominently to bring the fact in the nature of circumstances, as well as some positive declarations, that a combination to this end existed in the Board of Directors. Two of the number never got any patronage, nor did they have any knowledge of the methods employed in tredistribution.

Boulanger Indulges in Another of His Vague Addresses.

PARIS, March 18th.—Boulanger, in a letter to the electors of the Department of the North, announcing his intention to represent the Department of the Seine, says:
"The Assembly, which some political or financial scandal from time to time galvandecease will, six months hence, again place the country face to face with itself. Then you and I will again be ready to continue the struggle on behalf of liberty, which is denied, and the law, which is trampled upon."

Was in some way taken from the copy-book and another page which was leit there, as to the nature of work done and expenses incurred, and the equally singular variation in the sum stated opposite these items evinced a character of bookkeeping suggestive at least of the grossest carelessness. That the items were not intended to be mere estimated values of assets is sufficiently shown by the item regarding the new house, which is humorously called an "annex." This house is charged at less than its actual cost, because I am convinced that it cost over \$3,000, and yet the estimate, as appearing in the pages mentioned, is not based upon the mere walled by General McComb, \$5 030. THE SAMOAN COMMISSION.

The Commissioners appointed to the Samoan Conferencé are men the nation can implicitly trust to vindicate its honor. Mr. Kasson is a man of political experience, and has served his country abroad with distinction in negotiating postal conventions, and as Minister, first to Austria responsibility for the murder of J. M and secondly to Germany. He has had Clayton. In his charge to the Grand legislative experience, and has served in Jury of Conway county, recently, Judge various other public capacities. He is a Cunningham said: man of high legal attainments, is of clear judgment and firm in his convictions. Wm. Walter Phelps has had long and very active political and Congressional experience, and is a lawyer of fine ability. He, too, has served the nation abroad as Minister to Austria. He is a man of high scholastic accomplishments, and his connection with leading educational institu tions of the nation is of a very important character. He is an ardent American, a courageous man, and strongly impressed with the necessity for a vigorous foreign policy for the United States. Mr. Bates, the remaining member, is a lawyer of acknowledged ability, who has made American treaties and foreign relations a special study. He was sent out to Samoa by the late Administration to examine into the difficulties out of which the present irritation has grown. He made himself thoroughly intelligent upon the subject, and espousing the views taken by Consul-General Sewall fell into disfavor with Secretary Bayard. In all the recent agitation Mr. Bates has approved Mr. Sewall's position and fortified him in it. With these three Mr. Sewall will go out to Berlin as Secretary of the Commission nominally, but really to serve the Commissioners by informing them as to facts the German Knappes and Brandels may put in issue.

There is reason to anticipate from such a Commission a report that will result in the inauguration of a stronger policy regarding the rights of the United States in Pacific isles; a policy that will be opposed to any further seizure of island groups in the Pacific by European powers; a policy that will demand the recognition and maintence of the independence of the native island governments, and insure their ports in neutrality to all nations, that into and out of them all may freely trade.

In the history of Polynesia no mere inexcusable or tyrannical action has been recorded than the seizure of this Semoan ruler, and the placing in his seat of the half-caste pretender Tamesese. Germany will insist upon her ancient claim, that as German interests are greatly larger in Samoa than those of the English or Americans, Germany shall therefore have a more potential voice in local regulation, and be recognized as entitled to more of consideration in the adjustment of the question who is entitled to rule over the islands. But we apprehend that the American Commissioners will directly antagonize this claim, and will insist that Commission must proceed from the treaty basis only, and must rise superior to any questions of trade whatever. Under no circumstances is it likely that the American Commissioners will consent to the establishment by any foreign Power of even partial foreign control over the Samoan Government. On the contrary, our representatives will certainly stand firm for the recognition and maintenance of the independence of the Samoan Islands, with joint consular control prob-

The New York Graphic and the Epoch of the same city are contending for a reformation of the educational system in New York, that will require the Boards of Education to be paid for their services. It is a correct idea. If the people want efficient service and devotion to public business they must expect to pay for it. TO LET-HOUSE OF ELEVEN ROOMS, While it is true that there are men who are able, and are so situated that they can oversee the public schools without financial punishment, the system that is in vogue shuts out the poor man who cannot give the time-that is his money-necessary to a faithful discharge of duty. No matter how intelligent, therefore, or how admirably qualified for these supervisional officers, he cannot "afford" to take them, and thus one element in the composition of our society is skut out from participation in one of the most important branches of free government and civilization. The immediate occasion for the debate in New York is the declination of one of the Board of Education to take action to remedy certain ills in the sanitary condition of certain school-houses, on the ground WE WISH TO INFORM OUR PATRONS that he had not the time to attend to the duty, nor the inclination to go about a very disagreeable task. If that Director our new building, CORNER FIFTH A D I STS. was now a salaried officer, the city would have the right to demand that he proceed to do his duty, or else give way for some one who will. We do not believe that the State should ask any one of its citizens to work for it without compensation. It is entitled to as good administration of its affairs as is a private body, and it cannot hope to get it until it adopts the system of the private business concern. The public school system is too important and too sacred to have its administration made a charity. It demands the thought and time ! of intelligent men for its right conduct, and these constitute the capital in life of

A RINGING CHARGE.

Judge Cunningham, of the Circuit Court of Conway county, Arkansas, has no mantle to spread over the political assassin. You will have to investigate the Clayton assasination, and whoever aided and abetted, by word or deed, in that cowardly butchery should be dragged by the throat to justice. They should not be exempt from punishment because of any standing or influence they may have in the community. I do not know who they are. I wish to heaven that I did. I would tell you, But mind you, political assassinations do not originate in the minds of men in the humblest walks of life. Men who earn their living by the originate in the minds of men in the humblest waiks of life. Men who earn their living by the sweat of their brow, whose lives are poems of honor or industry, do not find it in their minds and hearts to conceive assassination, but it is conceived and planned by more influential, fine-haired gentlemen who pretend to be respectable. While the cowardly villain who fired the gun that killed Clayton should be caught and hung, the main object of our search should be the dastardly conspirators who inspired it. Some men seemingly want to apologize for, or extenuate, the horror of his murder on the ground of politics. I tell you there is no Democracy of Republicanism in murder.

If the Grand Jury responds to the charge, in the spirit of its delivery, it will clear away the imputation cast upon lowly people by the Democratic press and politicians of Arkansas, and declare-of which ticians of Arkansas, and declare—of which it must have moral conviction, if it is not established by legal certainty—that Clayton's murder is chargeable to men promsule. COLONY TRACTS. mencement of the subdivision of the large possessions of Mr. J. B. HAGGIN, in Kern County. The property embraced in it includes some of the finest lands in the county, as all well informed residents of BAKERSFIELD will testify. About 2500 acres of the land offered is in alfalfa, and can be rented or otherwise utilized to yield a large income, and a high percentage upon a valuation of from \$150 to \$200 per acre. Other portions of the offering are used for vegetable and garden purposes, while the balance is composed of land rich and fertile, awaiting only the industrious settler to demonstrate its great adaptability to fruits and the products of this wonderfully prolific soil. A large portion of these lands lie along and adjacent to UNION AVENUE, which as at present dedicated extends from Kern River south through BAKERSFIELD, a distance of 10 miles, and which is 115½ feet in width. The other tracts are reached by excellent county roads leading direct to BAKERSFIELD. ent of the subdivision of the larg

With the immense settlement that must in the nature of things follow the subdivision into small farms of such a large area of valuable and productive land around BAKERS-FIELD; with the steady stream of immigration that will pour into this section of the country, transforming the county into one gigantic colony, with its countless number of orchards and vineyards, drawing to it men of enterprise and capital, BAKERS-FIELD, with its incomparable water power, and other natural advantages; with its railroad facilities at hand, and the almost positive certainty of being the terminal point of another line, will grow to, and become, beyond a doubt, a city of great proportions, and town lots will become very valuable. Within the last year extensive improvements have been projected and completed at BAKERSFIELD. The SOUTHERN HOTEL, a large and handsome brick and iron structure, costing \$100,000, will be opened to the public about the middle of March, ensuring all who attend this sale comfortable accommodations. A street railway has been in successful operation for a year, the town is well supplied with water, and a fine quality of illuminating gas is furnished from the works just completed, at prices ruling in other interior cities. Other important enterprises of a private nature are contemplated and some well under way. The lots we offer are centrally located, and within a few blocks of the new SOUTHERN HOTEL. Town Lots.

Villa Lots.

For speculative or practical purposes, the villa lots included in this offering must commend themselves to all. Their proximity to the railroad and the business center of BAKERS-FIELD, and the remarkable fertility of the soil make them extremely valuable for suburban homes, while their future worth can scarcely be overestimated. WATER FOR IRRIGATION.

The lands to be sold are amply supplied with water for irrigation, from the Kern Island Canal, at rates now the lowest in the State, and fixed and regulated by the County Board of Super-

LOCAL INTELLIGENCE.

CITY TRUSTEES.

The Neglect of an Election Board Causes a Little Flurry. The Board of City Trustees met at 10 A. M. yesterday, all the members present. E. H. Williams, Chief Engineer of the

Water Works, reported 18,790,750 gallons of water pumped for the week ending Sunday, March 17th. B. U. Steinman asked that the bids for work on Front street, from Q to U, be laid over for a couple of weeks. There being no objection it was so ordered. The Ione Coal and Iron Company was awarded the contract to furnish fuel to the

water works for one year from April 1st for \$3 per ton, delivered at the water works building. If a switch is put into the building, and no charge made handling the cars, the coal will be furnished for \$2 80 per ton.

Trustee Wolf said he had been notified by Chief of Police Lee that Mr. Andrew by Chief of Police Lee that Mrs. Anderson had closed her disreputable dive on Front street, between I and J.

After reading quite a number of bills and ordering the same paid, the Board proceeded to canvass the returns of the city election held on Tuesday, March 12th.
The ballot boxes were taken from the vault and everything tallied out all right until Precinct Three and a half was reached. The tally receipt in that box has not been certified to by the Board. This caused considerable discussion, and stopped the can-vass. These were the returns from the polls at Twentieth and H, and much surprise was manifested at the neglect of the Board. The Mayor called Wilbur Smith, the Inspector, by telephone, and told him he must get the Election Board together at once to certify to the returns. In order to enacle him to do so a recess was taken to

erly locked and sealed, pending a contest that is expected to be made between M. J. Burke and E. H. McKee, the respective candidates for Auditor.

Second Trustee-elect William McLaughlin was then introduced, given the oath of office and duly installed. Mr. Ryan, the retiring Street Commissioner, then addressed the Board and ex-

pressed his sincere appreciation of the uni-form courtesy received at the hands of his colleagues during his term, and bespoke for his successor the good will and confilence to which he was entitled. Mr. Mc-Laughlin then expressed his high appreciation of the honor conferred upon him, and the sense of responsibility which rested and the sense of responsibility which rested upon his shoulders in conducting the onerous duties of Street Commissioner; that he would labor faithfully and consistently for the welfare of the city, and hoped the same feelings of unity and good will that at present prevailed in the deliberations of the Board would be exercised in his behalf as had the pleasure of his predecessor to claimed that its becoming a law could no harm in the least a man, woman or child

Mayor Gregory and Trustee Wolf emphasized regret in the retiracy of Mr. Ryan, who had been a faithful and reliable officer, and heartily welcomed the new incumbent. in whose integrity and ability their confidence was properly placed. There being no further business the Board then adjourned.

The Heavy Weather. The rainfall up to 5 P. M. yesterday was

.62 of an inch, making for this month 5.54 nches and 6.02 inches for the year, giving a total of 15.48 inches for this season, as against 10.06 inches to an equal date last year. The barometer is high and rising rapidly; clouds coming from the south-west. The clouds were becoming thinner towards evening yesterday—it may be to take a better hold on the pluviometrical record. The barometer is still low up north and high in California, thus insuring a continuation of southerly winds. A rain-storm was sweeping up the Mississippi valley yesterday, reaching west to the Rocky mountains and east to Cleve-Before Judge Buckley.

In the Police Court yesterday morning George Hall and James Oliver were each fined \$5 for disturbing the peace. Maggie Rhoads was convicted of vagrancy, and sent to the County Jail for twenty days. J. C. Bannon, charged with obtaining goods under false pretenses, will be tried to-morunder false pretenses, will be tried to-morrow. J. W. At 4 p. m. the Board reconvened. The Election Board which served at Precinct Three and a half appeared and attested to the correctness of the tally sheets of that polling place. After they were duly sworn the canvassing was resumed and completed with the following result:

Mr. Goucher then reviewed the history of the bill in both sessions of the Legisla Assessor, J. J. Buckley—majority, 1,688. Fire Commissioner, W. D. Comstock—majority, 344.

It was proposed to leave it to a vote of the people, but this was rejected by the opponents of the bill. It was held by some that this would be unconstitutional and void, and the advocates of the bill made up their minds that all that was necessary was to make a proper justification to the Legislature and the Governor. We made the proposition to leave it to the vote of the people, but Mr. Bayne failed to follow up the suggestion and the matter was dropped. When Mr. Bayne first made the proposition of leaving it to the people I was standing about fifteen feet distant. I assert now absolutely and positively that Mr. Hockheimer accepted Mr. Bayne's proposition and so informed him [cheers], and they backed squarely down, for they knew it would be carried by a two-thirds vote. [Cheers and cries of "Yes, by a three-quarters vote."] More than a majority vote of Glenn country is in this Assembly chamber to-day. [Applause.] The old county is losing nothing in God's world by this division. Colusa was the banner wheat county and the banner Democratic country of the State, and the anti-divisionists are holding on to a fictitious sentiment while the advancement and material progress of the section demands its division. [Applause.] It set apart it out-measures any three or half dozen counties of the older States. It is all important to this people. It is in the interest of progress and material prosperity. The people of this section know of no such word as fail, and will come forward with this measure at every session of the Legislature and future legislatien will be blocked by these people, who must receive recognition sooner or later. [Applause.] Notwithstanding that they will come again and still come, it will be a cost to the State for years to come. Their request is right and should be granted. I don't believe if the Governor does sign this bill that it will cause one night of unrest, one day of sorrow to anyone in the old county. [Applause.] Sign the bill, Governor, a

The home club has three first-class batteries, as follows: Goodenough and Graves, Hapeman and McLaughlin and Breckenridge and Krehmeyer, the latter the largest battery on the coast, Krehmeyer standing feet and weighing 190 pounds, and Breckenridge 6 feet 3 inches and weighing 190 pounds. They are both good hitters and base-runners, and will play in every game. Sacramento has the heaviest batting nine sacramento has the heaviest batting nine ever organized in the State, and the management believes it will take a better man than Baker to fool them. The game next Sunday will commence at 2 o'clock and trains will run as usual.

Mr. Chalmers took the same view and dwelt upon the need of protection against imposition. Mr. McCraney was impressed with both the social and business benefits of such an organization, and referred to the fact that a similar association exists in the southern end of the State. He spoke at length with earnestness upon the possibilities of a proper organization and its influence upon the interior press generally.

Mr. Actor referred to an editorial association that once existed in the central and deavor to that end.

Painstaking in qualities; the best skill and taste in designing; unsparing care in workmanship; a lively interest in what is new and practical; an avoidance of the loud and sensational; constant

adherence to low prices—these are some of the secrets of our great clothing success. Clothing for all ages, all tastes, all purses, and a bigger variety in each line than can be found

elsewhere in Sacramento or vicinity. Largest Clothing Assortments in both Men's and Boys' goods. Weinstock, Lubin & Co.

The qualities which we carry in these goods are for service, for satisfaction. Not one cent put in them to deceive. They stand on merit. Dye enough

to color them, no more. You'll not often find finished fabrics so near the weight of the raw silks as these. You won't see even the less expensive grades of these silks get rusty with age and crack at the folds, as even high cost goods sometimes do. It's a trick certain silks have, especially dye-loaded black silks. Black Gros-grains, 75 cents. Our special brands,

\$1 25 to \$2 per yard.

Black Rhadames, \$1 to \$2. There must be substance back of it, or a good face cannot be put on a Rhadame. A sleazy, loosewoven silk can't be dye-loaded or doctored into the seeming of good Rhadame. The twill of the back, the sheen of the surface are tell-tale points. Our Rhadames are fine and firm in the weave, smooth and satiny in the finish.

Colored Gros-grain Silks of standard quality,

Colored Satin Rhadames, \$1 to \$1 50. The new Faille Française Silks in all the latest colors.

Finest Ready-made Clothing at lowest prices. Weinstock, Lubin & Co. Have you seen the new lines of Men's Fine Shoes at \$5 and \$7 50? To have known our stock even a month ago is not to know it now. Not only are these shoes the very perfection of fine shoemaking, but we have them in all sizes and all widths, from A to EE. Thus there is no foot, unless it be deformed, which we cannot fit as perfectly as if the

shoe was made for it. This complete equipment of sizes applies to many lines, such as hook and lace shoes, the button and the congress, and to the broad French toes, the medium toes, and the narrow toes with caps. This complete equipment of sizes

Such a stock as this represents an investment of many thousands of dollars. Would we dare to make it if we did not know that the qualities and prices are right, and that the people of Sacramento appreciate the advantage of such an assortment to buy from?

Ex-President Rutherford B. Hayes writes as follows:

I thank you for the privilege of uniting with the New York citizens committee in their patriotic and charitable work in behalf of the disabled and destitute soldiers of the late Confederacy. The time is plainly drawing near—if it has not already come—when justice to its defenders will require the National Government to expend much larger sums than has heretefore been appropriated for the support of the men who saved it. Its sacred obligation to Union soldiers must not and will not be forgotten nor neglected, especially by those who have shared in the fullest measure of prosperity which has come from the services and sacrifices of those who stood by the Government when it was imperiled. But those who fought against the nation cannot and do not look to it for relief. Their disabled and destitute comrades are left to the generosity and benefactions of their more fortunate fellowcitizens, who wisely forecast the inspiring future of our country. Confederate soldiers and their descendants are to share with us and our descendants the destiny of America. Whatever, therefore, we, their fellow-citizens, can do to remove burdens from their shoulders and their descendants are to share with us and our descendants the destiny of America. Whatever, therefore, we, their fellow-citizens, can do to remove burdens from their shoulders and to brighten their lives is surely in the pathway of humanity and patriotism. With my contribution to the enterprise I beg you to accept also my best wishes for its success. I remain sincerely

Rev. Cyrus Cort's Reasons for Opposing Prohibition.

CHAMRERSBURG (Pa.). March 18th.-The Daily Spirit publishes this evening a letter from Rev. Cyrus Cort, pastor of the Reform Church, of Greencastle, one of the ablest ministers in the southern portion of the State, in which he clearly defines his position on the prohibition-amendment ques-

out nullifying or perverting many parts and passages of the Sacred Scripture, and at the same time running counter to what I consider the genius and aim of free and constitutional government. As a practical measure of temperance reform, prohibition has been largely a failure, and tends to create a community of spies—the most abominable state of society that we can conceive.

AN OVSTER-BOAT BULLY. A Chesaneake Bay Captain Who Maltreated His Sick Satlers.

BALTIMORE, March 18th .- The trial of Beauchamp, for cruelty to sailors under his command, which was begun in the United States District Court to-day, brought out some startling statements. John Kavalek, a sailor, stated that the Captain had offered to increase his pay if he would consent to throw two worthless hands over-

This testimony produced a decided effect on those present. Kavalek told how the Captain had beaten John-Steiner with a stick of wood, without provocation, and forced him to work when his foot was so sore that he could not put it to the ground Kavalek said the fare consisted mainly of half-spoiled beans, with sometimes cab bage, meat, white potatoes and corn bread.

RAT SKINS AND GLOVES. Fashionable Hand-Dressings for the Bon

tons and Beauties.

We are still being taught to feel what espect we can for rats, on account of the kins being used, very largely used, for and burning, is cured by Hood's Sarsapa loves. The venerable fiction was revived rilla. Many who were formerly severe ately in the correspondence columns of a sufferers have reason to thank "the pecuively contemporary, and was at once contradicted by a practical glover at Grenoble, principally on the score that rat skins were not large enough for the purpose. Still the statement was adhered to, objection being taken that not one but many skins might be used in making one pair of gloves.

The Grenoble workman wrote again

saying that 30,000 skins passed annually through his hands, so that he had some authority to speak upon the subject, and he protested that, to a practical man, the thing was quite absurd, and for another thing, the skips were not only not valua- condition of things is due to the ble because of being so thin, but were actually too thin to be of any value. Still the statement was maintained, and the testimony of two authoritative works on Schenck's Pulmonic Syrup. natural history and three encyclopædiasall, we suppose, unanimous in affirming that rat skins are very largely used in glove-making-was triumphantly appealed to, although, by the way, the titles of

these volumes were not quoted. It is of no use to put up encyclopædias or works on natural history as a defense upon a point of manufacture when people actually engaged in the work assault then with a flat denial. Rats are very interesting in narratives of animal sagacity, which is as near an acquaintance with them as most people desire, and their skins, like those of moles, are delicate to a degree, and the nap delightfully soft and fine. Mole skins make fine waistcoats, and have been made up, with some perseverance, into mantels for ladies, and doubtless rat skins might, with considerable pains, be

similarly utilized. There was, some years ago, an ingeniou individual of Liskeard, Cornwall, "who exhibited himself in a dress composed from top to toe of rat skins, which he had been collecting for three years and a half. The dress was made entirely by himself. It consisted of hat, neckerchief, coat, waist coat, trousers, tippet, gaiters and shoes. The number of rats required to complete the suit was six hundred and seventy. The tippet or boa was composed of the pieces of skin immediately round the tail of the rats, and was a very curious part of the dress, containing about six hundred

tails, and those none of the shortest." This proves the possibilities of rat skins, but very remote possibilities for all that. Hoves may have been so made as curios ities, but not commercially. We meet with statements in books to the effect that rat hunts are regularly held in Paris sewers, and the privilege of gathering th slaughtered animals on these days sold b the authorities, but the Prefect of the Seine knew nothing about it, and wrote to S. Wm. Beck saying so. We have statements, also, both in books and papers that rat hides are generally used in making the thumbs or thumb-gussets of kid gloves, and we have our largest glove manufact urers quite unaware of the circumstance Hard facts against book statements-which wins ?- Draper's Trade Journal.
